

WHEN TO USE Use when inbound calls go unanswered, overflow, or hit voicemail after hours.

COMPANY

DATE

SALESPERSON

INPUTS

Source: V=verified | C=client estimate | B=benchmark | A=assumption

Monthly inbound calls

Unanswered / missed %

Legitimate new-business %

Scenario capture / close %

Average customer revenue

Optional gross margin %

CORE LOGIC Calls x missed % -> qualified % -> scenario close % -> customer value

OUTPUTS / DISCUSSED SCENARIO

Unanswered calls

Theoretical revenue exposure

Qualified missed opportunities

Scenario customers

Monthly recoverable scenario

Annual recoverable scenario

VERIFY / NEXT STEP

Missing data / verification needed

Recommended next action

YAD CLAIM DISCIPLINE Exposure is not guaranteed revenue. Do not assume every missed call would become a customer.

WHEN TO USE Use when inbound leads are contacted slowly or inconsistently.

COMPANY

DATE

SALESPERSON

INPUTS

Source: V=verified | C=client estimate | B=benchmark | A=assumption

Monthly inbound leads

Current conversion %

Scenario conversion %

Average customer revenue

Current response time

Desired response workflow

CORE LOGIC Leads x conversion rate; compare current vs scenario conversion

OUTPUTS / DISCUSSED SCENARIO

Current customers / month

Scenario customers / month

Additional scenario customers

Monthly revenue scenario

Annual revenue scenario

VERIFY / NEXT STEP

Missing data / verification needed

Recommended next action

YAD CLAIM DISCIPLINE Do not invent a conversion lift. Use client data or a clearly labeled scenario.

WHEN TO USE Use when repetitive work consumes employee time that could shift to higher-value work.

COMPANY

DATE

SALESPERSON

INPUTS

Source: V=verified | C=client estimate | B=benchmark | A=assumption

Employees affected

Repetitive hours / employee / week

Loaded hourly labor cost

Addressable % of repetitive work

Productive weeks / year

CORE LOGIC Employees x hours/week x weeks x addressable % x loaded hourly cost

OUTPUTS / DISCUSSED SCENARIO

Annual repetitive hours

Addressable hours

Potential annual capacity value

VERIFY / NEXT STEP

Missing data / verification needed

Recommended next action

YAD CLAIM DISCIPLINE Capacity value is not automatic payroll savings. This form is never a justification to fire staff.

WHEN TO USE

Use only after the underlying opportunity calculations are defensible.

COMPANY

DATE

SALESPERSON

INPUTS

Source: V=verified | C=client estimate | B=benchmark | A=assumption

Conservative annual value

Expected annual value

Aggressive annual value

Implementation cost

Monthly ongoing cost

Annual ongoing cost if applicable

CORE LOGIC

Net value = annual value - first-year investment; ROI = net value / investment; payback = investment / monthly value

OUTPUTS / DISCUSSED SCENARIO

First-year investment

Conservative net value / ROI

Expected net value / ROI

Aggressive net value / ROI

Estimated payback period

VERIFY / NEXT STEP

Missing data / verification needed

Recommended next action

YAD CLAIM DISCIPLINE

All values are scenarios, not forecasts or guarantees. Do not force assumptions to make a project appear attractive.
